TECH-SYN

SYNTHETIC BLEND COMPRESSOR OIL

For Rotary and Reciprocating Compressors

TECHSYN Synthetic Blend Compressor Oil is a heavy duty lubricant for rotary and reciprocating compressors. TechSyn Compressor oil is made from PAO and ester base oils, blended with carefully selected hydrocarbons. TechSyn Compressor Oil meets the service and warranty requirements of most compressor manufacturers. TechSyn Compressor Oil provides excellent high temperature stability and protection for your equipment. It resists oxidation, wear, corrosion and breakdown better than petroleum or lower quality synthetic oils. TechSyn Compressor Oil has a high boiling point, which reduces evaporation and oil burning. It is fluid at temperatures down to -30 F.

Features	User Benefits	ISO Grade	(typical)
Gas Compressors Mobile Air Compressors	Reduces Maintenance Costs Extended Drain Intervals	ISO Grade	68
Marine Compressors Drilling Rigs	High Temperature Protection	Specific Gravity.....	0.85
Heavy Duty Trucks Heavy Equipment	Improved Efficiency	Flash Point, F.....	410
Industrial Air Compressors Stationary Compressors	Controls Deposits Compatible with Compressor Seals	Turbine Oil Stability Test: Pour Point, F.....	10,000 hours -45
		Viscosity, cSt @ 40C. Oxidation Stability, RBOT:	68 1700 minutes

Additional grades of TechSyn Compressor Oils are available under special blending arrangements
